Best Business AI Agent

MOWARRID AI

The First Autonomous AI Agent for Procurement, Voice Negotiation, and Dubai Customs Clearance.

"Not just a chatbot! An agent that plans, uses tools, and executes real deals."

Dubai Supply Chain Bottlenecks

Daily friction faced by enterprises and startups in the UAE:

7-Day Delays

Wasted monthly in manual supplier sourcing across JAFZA, Al Quoz, and Ras Al Khor.

Complex RFQs

Comparing quotations, calculating HS Codes, and VAT compliance drain team bandwidth.

Tough Negotiations

Securing optimal discounts and fast delivery requires tedious back-and-forth phone calls.

How Mowarrid Agent Works Autonomously

The 4-pillar agentic architecture:

01. UNDERSTAND

Document & RFQ Parser

Instantly extracts technical specifications via Vision OCR.

02. PLAN

Autonomous Strategy

Selects optimal free zones (JAFZA / DIP) for customs exemptions.

03. USE TOOLS

SQLite & Customs API

Queries live local trade data and official HS Code databases.

04. EXECUTE

Voice Deal & PO Generation

Negotiates voice discounts and issues official Purchase Orders.

Economic Impact in Dubai

Real quantified performance metrics:

15 Mins

Reduced from a 7-day traditional procurement cycle.

15%

Direct cost savings on total procurement budgets.

100%

Regulatory compliance with UAE and Dubai trade laws.

Ready to Lead Dubai's Digital Economy

Fully functional MVP, documented on GitHub, and built to integrate with government platforms for D33.
